

Center Administrator at 412-220-8181.

### ***Backgrounder: Radiance Surgery Center***

Updated: November 15, 2005

Founded in 1990 by Dr. Lori Cherup, M.D., F.A.C.S., Radiance Plastic Surgery is a private, out-patient surgery center that has been meeting the needs of patients, offering a complete range of plastic and reconstructive procedures as well as advanced skin care.

Dr. Cherup is a board-certified plastic surgeon and supported by a full-time professional staff, an on-site aesthetician and skin-care specialist, a patient coordinator and a full administrative support staff. In addition, eight other practicing surgeons, with specialties ranging from breast reconstruction and augmentation to plastic and reconstructive surgery to podiatry, have surgical privileges at Radiance and are on call to assist Dr. Cherup, as well as utilize for themselves Radiance's state-of-the-art surgical facilities.

Radiance Plastic Surgery can serve as a vital link for you in the development of stories relating to a wide range of plastic, reconstructive and general surgery subjects. You will find Dr. Cherup and her staff to be informative, engaging and responsive to your need for news and background/expert information. And you will find our state-of-the-art facility to be an ideal location from which to broadcast or as a shooting location for magazine or newspaper photography.

Hours of operation are Monday – Friday, 7:00 am – 5:00 pm with Saturday and evening hours available by request. There is also a branch office in the Ohio Valley Medical Building on Heckel Road in McKees Rocks, Pennsylvania.

For additional information and to arrange interviews and/or location-specific filming or photography, please contact Beth Hyland, Surgery
